Be  
Brilliant™

Power of a hearing aid.  
Ease of an earbud.

New Signia Active hearing aids deliver greater  
hearing in an exciting earbud design.

**signia**

# Hear life to the fullest.

With a modern, first-of-its-kind design and high-tech features, Signia Active hearing aids enhance your life in every environment. Their discreet earbud form delivers clinically proven better hearing in noisy situations, so you can pop them in as needed or wear them all day for non-stop hearing support. Plus, it's backed by advanced noise reduction technology, letting you laser in on specific sounds or conversations while filtering out distracting background noise.

Iconic Design

Instant Fit

Li-ion Rechargeability

Brilliant Sound

Bluetooth Connectivity

Budget Friendly Options

Take advantage of these special offers, available **May 10 through May 14, 2021**

**FREE DEMONSTRATION.**  
Easy and fast to fit!

**RISK-FREE, 2-WEEK TRIAL.**  
Zero cost. Zero obligation.

# For even more features, try Active Pro.

Active is perfect for those who are looking for a hearing edge in situations where hearing can be difficult. **But, if you're looking for the advanced design with a few more features, Active Pro is the perfect option.** Its features include Tinnitus therapy, which emits soothing sounds to help minimize in-ear ringing or buzzing, and Face Mask Mode, which helps you better understand speech through face masks.
